Re: Robert Jones. - Polygraph Examination

Dear Mr. Hoffman:

On Thursday December 20, 2012 your client, Robert Jones was afforded a series of polygraph examinations at Shawangunk Correctional Facility in Wallkill NY, pertaining to his truthfulness in regard to a shooting which took place in 1994.

The purpose of the examination was to determine if Robert Jones participated in; was present; or was the shooter in the Murder of one Antoine Stone. The shooting took place in area of Mott Avenue and Dickens Street in Far Rockaway sometime around 12:15am.

In discussing the case facts, Mr. Jones indicated that he knew Antoine Stone and they were friends. He was implicated when witness' said he was on a bicycle. When the Police went to his Apartment, they found a bicycle along with a number of bullets he had in his possession in the apartment.

None of the bullets were of the same caliber used in the Stone shooting. Jones explained to me that he would go out to Pennsylvania to a range and shoot. Since he had to pay for the ammunition, what he didn't use he saved for the next trip.

I asked Mr. Jones about what knowledge he had of a person (which we discussed) named "Jermaine Royster". Jones explained he knew the name because he had recently hired a Private Investigator to help in his case. Mr. LaSalle the Investigator is still investigating the matter. Other than knowing the name Jones knows nothing more about him.

POLYGRAPH EXAMINATION**

PAGE TWO

During the pre-test Interview, I had the opportunity again to discuss in detail with Mr. Jones the questions to be asked during the examination. The relevant questions were form at that time pertaining to if Jones had any direct or indirect involvement in the shooting.

Mr. Jones, read the Voluntary Consent Form which he signed, submitting himself freely to taking the polygraph examination. Prior to testing, Mr. Jones was advised of his rights when taking a polygraph examination and informed as to how the polygraph instrument functions. He also completed a medical release form indicating he was physically fit to partake in the examination process.

The instrument utilized was an Axciton Computerized, 4-Channel Polygraph Instrument capable of simultaneously recording four (4) separate physiological parameters. Those parameters being: upper respiratory, lower respiratory, electro-epidermal (G.S.R. - Galvanic Skin Response) and cardiovascular changes.

Prior to conducting Mr. Jones' polygraph examination, the polygraph instrument was calibrated to assure proper operation in all components.

Prior to the examination, Mr. Jones was administered a polygraph familiarity test to acquaint him with the instrumentation.

Mr. Jones was administered the Federal Zone Comparison Test, polygraph testing technique on both examinations. Utilizing the FZCT Technique, the following questions were asked followed by Mr. Jones's answers and this Polygraphist's opinions and determinations to those responses.

In addition, the entire examination was recorded both audio and video.

**NO.1: DID YOU SHOOT ANTOINE STONE?
(R1)**

ANSWER: NO OPINION: NO DECEPTION INDICATED

**NO.2: ARE YOU THE PERSON WHO SHOT ANTOINE STONE?
(R2)**

ANSWER: NO OPINION: NO DECEPTION INDICATED

**NO. 3: WERE YOU PRESENT WHEN ANTOINE STONE WAS SHOT?
(R3)**

ANSWER: NO OPINION: NO DECEPTION INDICATED

PAGE THREE

These questions were asked in three series of charts with the same results each time.

After careful analysis of Robert Jones' polygrams and his answers to the above questions concerning the shooting death of Antoine Stone, it is the opinion of this Polygraphist that Mr. Jones was being truthful in his answers to those questions. Mr. Jones exhibited no significant physiological responses indicative of deception to the questions concerning his having been the shooter.

In light of the importance of the outcome of this examination, I proceeded to conduct a second series of charts utilizing the same series of questions.

I again utilized the Federal Zone Comparison Test, polygraph testing technique. Utilizing the FZCT Technique, the following questions were asked followed by Mr. Jones' answers and this Polygraphist's opinions and determinations to those responses.

**NO.1: WERE YOU PRESENT WHEN ANTOINE STONE WAS SHOT?
(R1)**

ANSWER: NO OPINION: NO DECEPTION INDICATED

**NO.2: ARE YOU THE PERSON WHO SHOT ANTOINE STONE?
(R2)**

ANSWER: NO OPINION: NO DECEPTION INDICATED

**NO. 3: DID YOU SHOOT ANTOINE STONE?
(R3)**

ANSWER: NO OPINION: NO DECEPTION INDICATED

Again after careful analysis of Robert Jones' polygrams and his answers to the above questions concerning the shooting death of Antoine Stone, it is the opinion of this Polygraphist that Mr. Jones was being truthful in his answers to those questions. Mr. Jones again exhibited no significant physiological responses indicative of deception to the questions concerning his having been the shooter of Antoine Stone in September of 1994.

In addition to my numerical scoring of the Polygrams, I also scored them by means of Axciton's Polygraph Scoring Algorithm which concurred with my finding of no deception indicated. (Copy enclosed)

During the examination, Mr. Jones was cooperative in every way. He exhibited no non verbal behaviors indicative of deception. Following the examination when I told Mr.

Jones that he had passed and that I believed him, he stated "I feel like I'm gonna cry I never shot him".

Should any qualified Polygraphist wish to review my work product, with the permission of your client and yourself, I would be happy to oblige them.

I wish to thank you for allowing me to be of service If I can be of any further assistance in this matter or in the future please feel free to call upon me. I remain,

Very truly yours,

FRED R. MEYER, M.E.P., A.C.P.
